

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

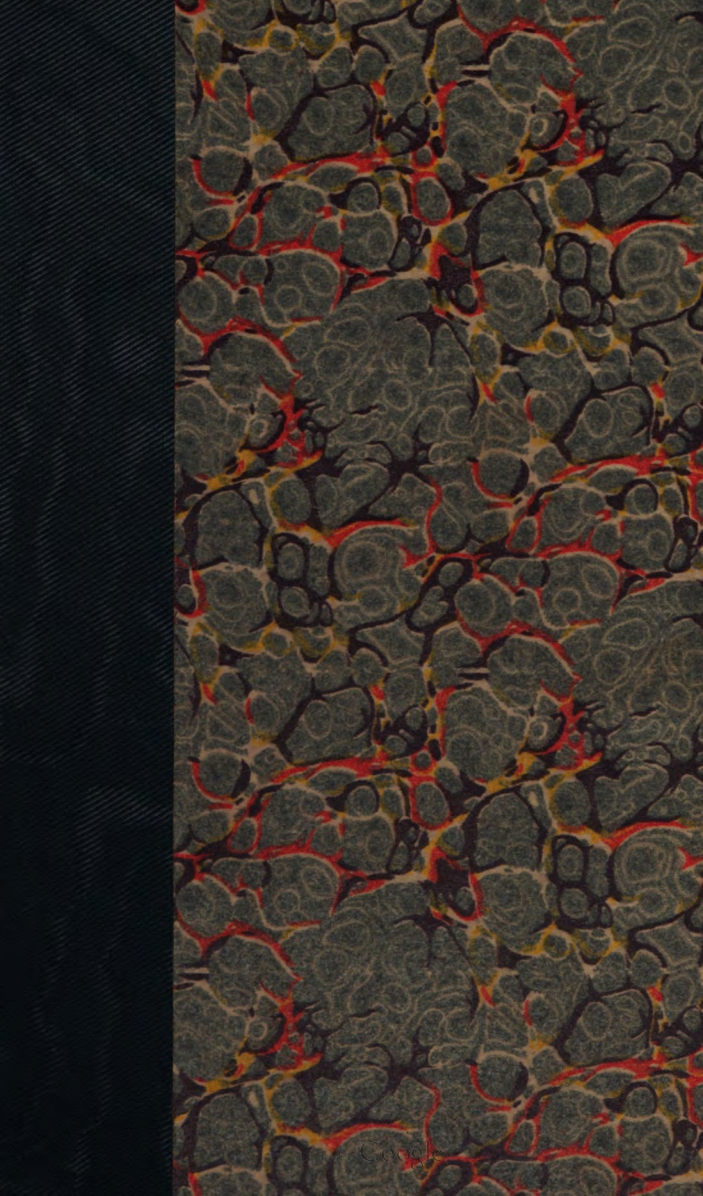

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. The design of the present work is to obviate the serious objections which gentlemen have to purchase the general Reports of King's Bench Cases, where the cases interesting to magistrates form so small a portion compared with those which concern the profession. Early publication, portability of form, and moderation of expence, are some of the inducements which the publishers hold out to engage the attention of gentlemen to the present work, which is published as frequently as a sufficient body of matter can be collected to form a part.

EAGLE's (F. K.) and YOUNGE's (E.) CASES relating to TITHES, from the Reign of King John to the 6th Geo. 4. carefully and impartially compiled and translated from the Year Books, the Reports, and other authentic Sources, including a considerable number of MSS. never before printed; comprising also all the STATUTES relating to TITHES; together with the ORDINANCE of the COMMONWEALTH, under which the Parliamentary Surveys were made; a full and accurate List of the DISSOLVED MONASTERIES and RELIGIOUS HOUSES, with their yearly values; a SUMMARY of the ECCLESIASTICAL LAW; and SELDEN's History of TITHES; with a Copious ANALYTICAL INDEX, forming a Complete DIGEST of the LAW of TITHES. 4 large closely printed vols. royal 8vo. 1826

The acknowledged imperfections of every work which has hitherto appeared upon the subject of Tithes in general, and more particularly

[A. Maxwell,

under the head of "Cases relating to Tithes, &c. &c." induced the Publishers to engage in the present expensive undertaking, which is the result of many years laborious research. In this publication will be found all the most important historical facts and every precedent in Law and Equity relating to Tithes, comprehending all the learning which the greatest lawyers of ancient and modern times have contributed in the way of authority, doctrine, or illustration, towards the settling and right understanding of the principles of this extremely difficult and momentous branch of the law; and one also, in which those important classes of society, the Clergy, the Land-holders and Farmers, are deeply and practically interested. The cases, which are inserted at length, have been faithfully and impartially collected and printed from the most accurate Reporters, and references given where the same cases have been reported by others.

The Publishers beg leave to state, as one of the many grounds on which they found their confidence in the superiority of their publication, and their hope that its accuracy and utility will be duly appreciated by the Profession, and those Gentlemen interested in Tithe questions, that it contains more than *eight hundred* cases not to be found in Sir H. Gwillim's Collection. The Digest comprises all the requisites of a complete Treatise on the Law of Tithes, and will alone constitute a most valuable and useful work.

FISK's (G.) Analysis of Coke on Littleton, (including the Notes of Lord Hale, Lord Nottingham, Francis Hargrave, and Charles Butler, Esq.) formed with a view to facilitate the progress of the student in his study of that work, as well as more firmly to engraft its learning upon his memory. 8vo. 16s. boards 1824

The Analysis of Blackstone's Commentaries, in the form of questions, published some years ago by Mr. Barron Field, suggested the idea of the above work. That a catechetical mode of imparting knowledge on any subject, is at once the most forcible and effectual, does not seem to admit of a doubt; and when applied to such a science as the jurisprudence of this country has become, its utility must be doubly apparent.

Curwood, Esq. Barrister at Law. 2 vols. royal 8vo. 2l. 16s. boards 1824

The last edition of this work was published by Mr. Leach in 1796; but it appears to the editor of the present edition, that the book was swelled to an unnecessary bulk, by the insertion of much matter wholly irrelevant, or but slightly connected with a work which professed to treat only of "Pleas of the Crown;" for instance, the whole of the then Highway Act, verbatim; the Turnpike Act, &c. These excrescences are rejected in the present edition, and the statutes and cases are brought down to the present time.

HOVENDEN's (J. E.) Treatise on the Jurisdiction of Courts of Equity in Matters of Fraud. Royal 8vo. 24. 12s. 6d. 1825

This work presents a compressed, but general, view of the principles and authorities according to which Equity, in the correction of Frauds, is administered in the Court of Chancery; whether under its prescriptive or statutory jurisdiction; whether sitting in Equity or Bankruptcy; or by virtue of a specially delegated power of administration, as in cases of Lunacy. The slight differences in point of form, and the diversity in some few instances, as to the extent of relief given by the Court of Exchequer in equitable causes, are duly noticed: and illustrations of the several heads of the subject, by reference to collateral decisions of Courts of Common Law, are not overlooked.

As the original design was principally for the instruction of pupils, the Author thought it right to prefix an epitome of the practice, which, however, from his anxiety not to omit any thing which might be of utility, has been gradually raised into an important portion of the work. Solicitors, who wish to acquire a knowledge of the principles of Practice, will find it advantageous ; at the same time it is sufficiently copious for general reference,

WATKINS's (C.) Treatise on Copyholds, 4th edition, by T. Coventry, Esq. of Lincoln's Inn, Barrister at Law. 2 vols. 8vo. closely printed, 1*l.* 17*s.* boards 1825

The original edition was far from perfect as a Compendium of Copyhold Law, and numerous Cases have been decided since, which have rendered it less adapted to present use. As neither the omission, in the original work, nor the recently adjudged cases, have been, in any considerable degree supplied by the second and third editions, the present Editor trusts that he is performing a service, not altogether unacceptable to the profession, by the publication of this edition, in the notes of which will be found much new matter, together with references to the various points of Copyhold Law, which have been decided, between the year 1797 and the present time. To render the work more extensively useful, he has introduced into the notes many practical hints and observations, and he has added an appendix, consisting of Conveyancing and Court Keeping Precedents and notices of many peculiar and remarkable customs existing in various parts of the kingdom.
